Thermographer – Arc Flash Gloves

To Protect Electrical Workers from Arc Flash Heat Exposures

FEATURES	<p>Oberon's Thermographer Arc Flash gloves are inherently Flame Resistant (FR). All the materials and threads used in the construction of the Thermographer Gloves are inherently flame resistant. These gloves will remain Flame Resistant after years of frequent and repeated laundering. Our Arc gloves are the lightest weight arc flash gloves in the market at their protection level.</p> <p>Available in Sizes: R & L</p>
