Worker Body Measurement: The worker's actual measurements determined using a fabric measuring tape.

Coat, Bib-Overall and Coverall Measurements: Garment dimensions are larger than the user's measurements to allow space for movement.

Measuring Instructions

1. Use a Fabric Measuring Tape

Chest: Measure around the chest just under the arms and across the shoulder blades.

Waist: Measure around the natural waistline.

Height: Measure the total height of the worker. You can tape one measuring tape to a wall and have the worker stand up straight against it.

After measuring the worker select the size using the tables above.

Each of these numbers represent the maximum measurement per size. Always round up and use the larger of either Chest or Waist.
